

## About Our Service Centres

Various automotive businesses at city and regional locations have been sub-contracted as Guardian Service Centres to provide all aspects of interlock program services to participants using their established technical skills. Our dealer network extends throughout Australia, so you'll never be far from assistance if required. As interlock programs expand, new service centres are established. Participants should check [www.guardianinterlock.com.au](http://www.guardianinterlock.com.au) for updated information on centres, or call Guardian on 1300 881005.

### **Metro:**

**Adventure Auto Electrics**  
Kedron QLD 4031  
Ph: (07) 3359 5518

**Adventure Auto Electrics**  
Kallangur QLD 4503  
Ph: (07) 3285 4534

**Burleigh Heads Auto Electrical**  
Miami QLD 4220  
Ph: (07) 5535 3155

**National Automotive**  
Maroochydore QLD 4558  
Ph: (07) 5452 7666

**Norman's Auto Electrics**  
Bowen QLD 4580  
Ph: (07) 4786 1830

**Rods Auto Electrical**  
Emerald QLD 4720  
Ph: (07) 4987 4888

**Titan Ind**  
Gladstone QLD 4680  
Ph: (07) 4972 7555

**Williams Auto Electricians**  
Cairns QLD 4870  
Ph: (07) 4051 2330

## Information Guide Queensland Alcohol Ignition Interlock Program

## Information & Facts

QLD introduced the Alcohol Ignition Interlock Program (AIIP) in 2010. The Interlock Program requires high range and repeat offenders to have an alcohol interlock installed.

The Interlock Program requires that an alcohol interlock is fitted for a 12 month period after the disqualification period. The interlock will prevent the vehicle from being started if the driver cannot pass the breath test.

Do not use the interlock as a breath tester because everything is logged and could cause an extension to your interlock period.

For further information visit the following website:

[www.qld.gov.au/transport/safety/road-safety/drink-driving/interlocks](http://www.qld.gov.au/transport/safety/road-safety/drink-driving/interlocks)

## Guardian 2030

Guardian Interlock Systems Australasia Pty Limited

ABN 47 062 932 932

Phone: (02) 8853 6200 Fax: 02 8853 6201

Email: [admin@guardianinterlock.com.au](mailto:admin@guardianinterlock.com.au)

Web: [www.guardianinterlock.com.au](http://www.guardianinterlock.com.au)

### 1. What is an interlock ?

The interlock is a breath testing device that stops the driver from starting their vehicle when they have a Blood Alcohol Concentration (BAC) at or higher than 0.02%.

### 2. How does the interlock work?

When the interlock device is fitted to a vehicle, the driver must blow and hum into the interlock head unit before being able to start the vehicle. After the interlock has received a breath sample, it will be analysed and the message "Start" will appear on the screen if the result was under 0.02% BAC. The driver can simply start the vehicle and drive away.

After a random period of time, the interlock will indicate to the driver that they need to retest. There is no need to turn the vehicle off. The driver must give another breath sample and if passed, the driver may then continue on their way. You must use the vehicle at least twice in any period or the period will not count toward completion.

### 3. What happens after the interlock is installed?

30 days after installation the vehicle has to be returned for the interlock to be downloaded and the next service appointment set. This servicing involves payment of fees for the next period. A summary report will be provided (at no cost) showing how your program is running and events that have been recorded.

### 4. How long does it take to install?

A standard vehicle takes around 2 hours for installation and training. Where additional time is required for installation or training, the situation will be explained and extra fees may apply.

### 5. What will I need to bring with me on the day?

You will need your TMR letter, photo ID, concession card (conditions apply) and motor vehicle. The owner's permission is always required.

### 6. Is it expensive?

Initially you need to pay for the installation and the first month's lease fee for the interlock which is leased on a monthly basis. After the first month you have to have the interlock serviced at bi-monthly intervals. The overall cost of installation will be determined by the vehicle type (standard or non-standard installation), and length of program. For each ongoing interlock service you pay a Download and Lease Fee. You also have a Loss Protection Plan option, which reduces your liability if the equipment is stolen. Talk to Guardian about these aspects.

### 7. How do I complete the program?

Participants have to demonstrate that they can separate drinking and driving over a 6 month period before they will be eligible to hold a licence without an interlock condition. For further information visit: [www.qld.gov.au/transport/safety/road-safety/drink-driving/interlocks](http://www.qld.gov.au/transport/safety/road-safety/drink-driving/interlocks)

Don't be afraid to ask for help if you are having difficulties.

Guardian is proud to be an active member in the community, supporting many charities each year and providing information on pro-active measures to implement work safety and avoid drink driving.

### 8. Can anyone drive the vehicle after an interlock device has been fitted?

Yes, anyone can drive the vehicle but you will still be responsible for what is on your log.

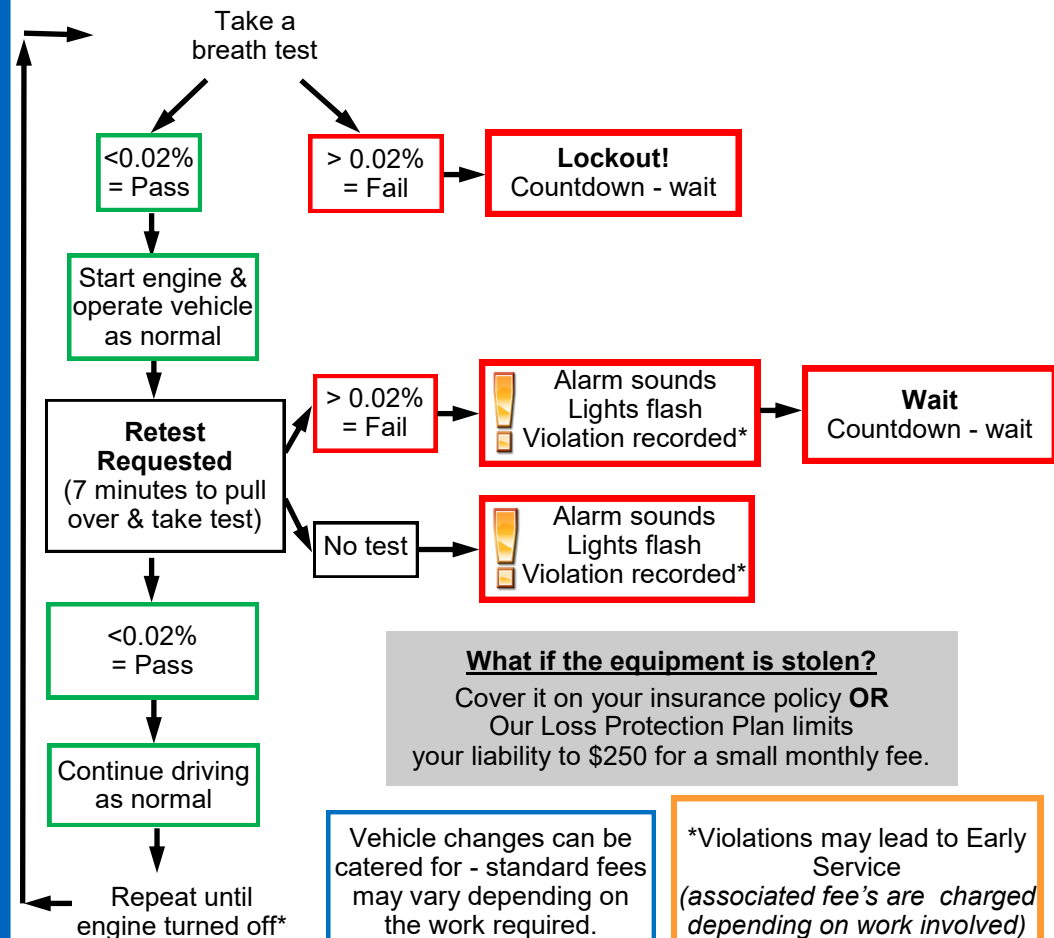

### 9. Why should you choose Guardian ?

We are an Australian, family owned business. Guardian customers can have their interlock monitored anywhere in Australia at the same cost. They do not need to return to the original installer. We provide a 24hr emergency service help line, so if you are having difficulties, you will be able to talk to someone and receive help and technical advice!

Our friendly staff are just a phone call away for any enquiries!

## How does the interlock system work in my car?

Ignition in the ON position

**What if the equipment is stolen?**  
Cover it on your insurance policy OR  
Our Loss Protection Plan limits your liability to \$250 for a small monthly fee.

Vehicle changes can be catered for - standard fees may vary depending on the work required.

\*Violations may lead to Early Service (associated fee's are charged depending on work involved)

\*3 min stall protect/restart after engine is turned off
